THE ULTIMATE SPREADER SpreadmaX

Spreading without SpreadmaX

Spreading with SpreadmaX

**An ideal product
to maximize the efficacy of agrochemicals**

Parry's
BIO

THE ULTIMATE SPREADER SpreadmaX

Product Features

- SpreadmaX** is a unique formulation containing natural ingredients, stabilizer and silicon based non-ionic surfactant.
- SpreadmaX** rapidly spreads on leaf surface providing wetting, sticking and rain fastening effect.
- SpreadmaX** enhances efficacy of insecticides, fungicides, herbicides, PGRs and foliar fertilizers.
- SpreadmaX** minimizes pest and pathogen resistance development by improving the spread of agrochemicals on leaf surface.
- SpreadmaX** provides good value for crop protection efforts.
- SpreadmaX** is Bio-degradable and Organic.

Dosage

- Use 0.25 to 0.5 ml of SpreadmaX per litre of water with insecticides, fungicides and PGRs.
- Use 0.25 to 1 ml per litre of water for herbicides.
- Use 0.15 to 1 ml per litre of water for foliar fertilizers.

Method of Application

- Use SpreadmaX at recommended dosages with insecticides or fungicides or herbicides or PGRs or nutrients.
- Good mixing is very essential for desired efficacy.
- Quantity of water depends on upon type of crop, stage and spray equipment for foliar spraying.
